

SHAKIK ZAMAN

STUDENT

PROFILE

I'm a third-year ICE student at Bangladesh University of Professionals, passionate about technology, communication systems, and digital innovation. I enjoy learning how software, networks, and data work together to solve real-world problems. I'm continuously improving my technical, programming, communication, and problem-solving skills through academic projects and practical experiences. I believe in learning consistently, staying curious, and turning ideas into meaningful solutions. My goal is to become a well-rounded technology professional who can contribute to impactful projects, adapt to new technologies, and build simple, reliable, and useful solutions for the future.
